Education

California State University, Long Beach

Computer Science BS Degree

Expected to Graduate in Spring 2017

Skills

Languages: C++, Java, Python, Matlab, HTML, CSS, Javascript.

Operating Systems: Windows, Linux (Ubuntu, Debian)

Tools: Eclipse, QtCreator, Visual Studio, Magento, Wordpress, Android Studio, Adobe Photoshop, Illustrator, Selenium, SimpleCV.

English (Fluent), Chinese (Proficient): Cantonese, Mandarin.

Work Experience

California State University Chancellor's Office

Student Assistant for Student Success Initiatives

Since October 2016

Worked independently in a team of 6 to improve, test, and reconstruct a website originally developed with react.js. The purpose of the website was to help faculty and staff of the CSUs understand student progression through data visualization. Reconstructed with javascript and highcharts optimizing loading time and functionality.

Sincerely Sweet Boutique

Web Development Intern

June 2015 - March 2016

An ecommerce startup company that utilized the Magento platform. Tasks included: adding simple and configurable products, creating attributes, completing tasks with search engine optimization in mind, updating database and excel.

Activities/Organizations

Association for Computing Machinery (ACM / ACM-W)

Vice President, Media Designer, Treasurer

Spring 2014 - Spring 2017

Managed club alongside president, ensuring all positions and duties were fulfilled and the chapter would thrive in the future. Encouraged teamwork in board, took duties of vacant positions, sought speakers and networking events. Handling Finances. Organizing and hosting workshops.

Programming Contest Participant (ACM-ICPC)

Fall 2016

Participated in the Fall 2016 annual ACM-ICPC, an intercollegiate 6-hour competition, with a group of 2 other students from California State University, Long Beach. Worked together to discuss solutions and plan which problems would be more efficient to solve.

Alpha Phi Omega (ΑΦΩ)

Executive Committee - Webmaster, Active

Since Fall 2014

Alpha Phi Omega's cardinal principles are leadership, friendship, and service. Served organization as webmaster implementing the chapter's wants and needs over wordpress; managed website and hosting. Contributed ideas to chapter events.

BeachHacks (CSU Long Beach 24-hr Hackathon)

Organizer, Media Designer

April 2016, 2017

Designed and redesigned logo, advertisements, prospectus, and documents. Helped send outreaching emails to get sponsors for the event, handled social media accounts and inquiries, managed volunteers and photographers during event.
